

DHIKA RAMADHAN SAPUTRA

Purwokerto, Central Java, 53152 | +62 878-9036-8816 | dhikaramadhansaputra@gmail.com | <https://www.linkedin.com/in/dhikaramadhansaputra/> | dhikaramadhansaputra.vercel.app

SUMMARY

Final-year Informatics Engineering student at Universitas Muhammadiyah Purwokerto with a strong technical focus on Data Analytics. Demonstrated expertise in extracting, cleaning, and visualizing large-scale datasets, including a proven track record of managing over 65,901 rows of data while strictly adhering to security protocols. Proficient in leveraging Microsoft Power BI to build interactive analytical dashboards that support strategic decision-making. Possess an additional background in digital content strategy management with high engagement metrics, strengthening the ability to bridge technical analysis with business objectives.

PROFESSIONAL EXPERIENCE

Data Analyst | Project-based Internship | April 2025 – June 2025

Admissions & Publication Bureau (BPA) UMP | Purwokerto, Central Java | [View project \(Github\)](#)

- Collaborated with the internal team (BPA UMP) to evaluate the effectiveness of the university's marketing strategies through a data analytics approach.
- Ensured strict compliance with institutional data security and privacy protocols during the data acquisition and integration processes of prospective students.
- Delivered comprehensive dashboard tools visualizing 10-year enrollment trends to stakeholders, supporting the formulation of future promotional and admission strategies.

Content Planner | Project-based Internship | July 2023 – September 2023

Tribelindo | Purwokerto, Central Java

- Formulated specific niche strategies and content pillars to optimize the social media growth of the consulting firm.
- Developed a structured editorial plan and mapped content references from similar industries to maximize audience engagement.

Helper | Kontrak | May 2022 – August 2022

Steaky Steak Purwokerto | Purwokerto, Central Java | [View documentation](#)

- Executed strict Standard Operating Procedures (SOP) to maintain consistency in product quality and presentation.
- Managed and reported daily kitchen inventory (stock opname) to support operational efficiency and supply chain accuracy.

PORTFOLIO PROJECT

HR Analytics Dashboard | [View project \(Github\)](#)

- Cleaned, validated, and transformed an HR dataset consisting of 1,480 rows and 37 variables using Power Query to resolve data duplicates, data type anomalies, and missing values.
- Designed an interactive dashboard using Microsoft Power BI by structuring key KPI metrics (e.g., total employees, inactive employees, and attrition rate) as a monitoring tool and preliminary diagnostic for employee turnover.
- Analyzed the primary drivers behind a 16.17% employee attrition rate (highest in Administration and Sales departments) and formulated actionable insights regarding the evaluation of compensation policies and career progression.

Retail Market Analysis in Indonesia | [View project \(Github\)](#)

- Extracted and transformed over 20,000 rows of raw retail sales dataset from a MySQL database (localhost) into an analytical format. Sourced raw dataset from Kaggle ([view dataset](#)).
- Validated and cleansed anomalies across 11 data variables to ensure data model accuracy prior to visualization.
- Designed an analytical dashboard using Microsoft Power BI, defined KPI metrics, and structured DAX (Data Analysis Expressions) queries for accurate profit and revenue calculations.

New Student Enrollment Trends 2014-2024 and Its Implications for UMP Marketing Strategy Using Tableau

Public | [View project \(Github\)](#)

- Collaborated with internal staff (BPA UMP) to acquire data securely from the university's database, adhering to strict data privacy protocols in lieu of direct extraction.
- Integrated, cleaned, and validated a large-scale complex dataset (65,901 rows and 73 variables) by applying comprehensive technical problem-solving.

- Developed an interactive dashboard using Tableau based on stakeholder briefs, serving as an evaluation tool for marketing campaigns.

The Impact of Social and Economic Factors on Poverty Classification in Indonesia | [View project \(Github\)](#)

- Processed a dataset containing 999 rows and 13 variables related to socio-economic indicators sourced from Kaggle ([view dataset](#)).
- Built a data visualization model using Microsoft Power BI to identify key correlations among variables contributing to poverty across various regions.

ORGANIZATIONAL EXPERIENCE

Banyumas Campus Expo 2023 | Purwokerto, Central Java | November 2022 – February 2023

Sponsorship Division

- Designed 5 fundraising strategies and mapped out 50+ potential sponsorship prospects across various corporate sectors.
- Conducted Business-to-Business (B2B) partnership negotiations, successfully securing 16 new sponsorship contracts within just 2 weeks.
- Set a record for achieving the highest funding target in the history of the event's execution compared to previous years.

CERTIFICATIONS

- **Learning Power BI Desktop** | LinkedIn | February 2026 | [View credential](#)
- **DAMC – Intro to Data Analytics** | RevoU | November 2025 | [View credential](#)
- **Introduction to Data Analytics with Python** | Alison | November 2025 | [View credential](#)
- **SQL (Basic)** | HackerRank | September 2024 | [View credential](#)

EDUCATION

Universitas Muhammadiyah Purwokerto | Purwokerto, Central Java | 2022 - 2026

Bachelor of Informatics Engineering.

SMA Negeri 3 Purwokerto | Purwokerto, Central Java | 2019 - 2022

Mathematics and Natural Sciences (*MIPA*).

TECHNICAL SKILLS

Data & Analytics Tools : MySQL Workbench, Python, Microsoft Power BI, Github, Microsoft Excel, Microsoft Word, Canva, Visual Studio Code.

Core Competencies : Data Collection, Data Preprocessing, Data Analysis, Data Visualization, Database Administration.
